## New York Stock Market

New York, August II.—After four hours of alternate declines and advances to-day's stock market took on an appearance of strength and activity in the final hour, transactions in that period more than equaling all the other hours of the session. The leader was United States Stoel, in which large buying orders made their appearance. There was no news to account for the sudden inquiry for steel.

The buying later comprehended Canadian Pacific, Union Pacific, St. Paul. Canadian Pacific, gain of almost 4 points preceded the declaration of the regular dividend. While considerable realizing was seen in the later dealings the market lost little of its advance, average gains extending from 1972 points. Southern Facific was almost the sole stock of prominence to show some backwardness. the sole stock of prominents backwardness.

A rise in rentes was the only feature of the Parls market, and Herlin's bourse sugsested a halting attitude.

The bond market was irregular, but hardned towards the end in sympathy with stock. Government bonds were unchanged

# SHORTS STAMPEDE IN STEEL COMMON

Burst of Activity Stimulates Remainder of List, and Market

Closes Strong. BY BROADAN WALL.

New York, August 11.-A stampede of "shorts" in Steel carried the common from 62 to 64 in the last hour to-day, and as the price advanced trading became more active with heavy dealing at the low figure. This burst of activity stimulated the rest of the list, the market closing strong in conse-

list, the market closing strong in consequence,
Dealings at the opening were unusually quiet for a Monday morning, and the duliness proved confusing. London prices were lower, and foreign houses sold about 15,690 shares in the first hour.

The most important development of the day was the announcement that the Union Pacific directors had fixed 92 as the price on the 500,000 shares of Southern Pacific offered for subscription in the final dissolution of the Harriman merger.

The Southern Pacific certificates carry to subscribers two quarterly dividends, of say 3 per cent, thus establishing a price of about 89 net to subscribers. As the news was being published there was a break of 1 per cent in price of Southern Pacific, which was quickly recovered, and the stock closed at 92. The terms on which the underwriting syndicate will insure the success of the transaction have not been made known, but it is understood that their commission will be about 2½ per cent.

Union Pacific turned strong on the advance in Steel and closed at 153%, an advance of 2 per cent from the figure ruling when the Southern Pacific announcement was made public.

The copper shares were mostly neglected, but rallied sharply, and closed at substantial advances.

It was feared that the death of Anthony N. Brady might upset the plans under way. It is now understood that the leaders of the movement are satisfied that the demise of the late Traction magnate will make no difference in the plans outlined.
